1. INTRODUCTION

The **ISF U15 World School Sport Games** is being organised for the first time in ISF history. It brings together school athletes from 13 to 15 years old in a multisport event (14 different sports), creating a unique context for high level sport competitions, educational programmes, and cultural exchanges. The educational programme and the sport format of the event shall always be adapted to the age of the participants.

Sport competition: The best student athletes in the world will take part in the ISF U15 World School Sport Games as an individual and in a school team. In addition to the name of the respective member, individuals and teams will represent the colours and name of the specific school they represent. This format is meant to create a strong identification between the students and the school they attend.

The Educational programme: Programmes to develop leadership skills (healthy life style, Olympic values, SDG UN 2020..) , to raise awareness on the main policies and challenges in sport (Gender equality, Fair-Play, ...). Seminars and workshops are organised with the ISF sport and institutional partners.

Cultural exchanges: A cultural programme will be organised each day for the participants during which they will have opportunity to visit and experience the culture and heritage of Belgrade and Serbia. The participating countries will have the opportunity to present their culture and traditional values through different types of cultural/entertainment activities and create cross cultural exchanges by discovering the culture of the other participants and the host country.

Dear Members,
Dear Participants,

It is crucial for ISF to address younger students as we are living in a more complex and challenging environment. We believe that ISF along with our organisers and partners must help youth student athletes from an early age establish a healthy lifestyle, acquire and develop leadership skills, discover competences whilst also gaining a better understanding of the world. These are the main reasons for which we decided to launch the ISF U15 World School Sport Games.

We would like to thank the Serbian School Sport Federation for hosting this inaugural event which will pave the way for a greater integration of the different categories of school sport practitioners, helping to convey the Olympic Values to the youngest and consolidate the ISF community.

We are looking forward to meeting you all in Belgrade.

Best regards

Laurent Petrynka – ISF President

Dear students,
Dear participants of ISF U15 World School Games,

I would like to welcome you to Serbia and its capital Belgrade, famous worldwide for sport. We are extremely honoured and happy that our country will be the first to organise the ISF U15 World School Games. This competition will be special because finally younger students will have the opportunity to compete internationally, as well as being able to meet and socialise with their peers from around the world. Serbian School Sports Federation has organised some of the largest ISF events, such as WSC Volleyball in 2016, WSC Basketball 3x3 in 2018 and WSC Football in 2019, so our Federation has the knowledge and experience for organising big events.

The year 2020 will be remembered as one of the worst years in history due to the Coronavirus disease COVID-19. Many sport competitions have been cancelled or postponed. However, we are ready to organise

this event, and I assure you that we will take all necessary measures in order to maintain competition in the safest way. Our main goal is to make each participant feel safe, and to return home satisfied, leaving with the most beautiful experience and memories. That is the main mission of school sports.

Lastly, I would like to thank the ISF for giving us the support and opportunity to organise these unique Games and write a new chapter in school sport history.

Best regards

Željko Tanasković – SSSF President
